We will pay you \$10 for each functioning AT5118 and AT5133 AEI tag and for all AT5118 and AT5133 AEI tags still covered under TransCore's one-year warranty. We test all tags to ensure that they can be re-programmed and read by an RF reader. We only pay for tags that pass all our tests or are still covered under warranty. Please do not send us any tags that have physical damage.

We no longer purchase the old AT5110 and AT5125 AEI tags. The tag model number is etched on the front surface of the tag. The AT5110 tags and AT5125 tags also have a programming port hole on the back side of the tag. The AT5118 and AT5133 do not have a programming port hole.
